

Printing Ideas and Variations

GraffitiWall users around the country offer some useful tips.

“Instead of printing *Just Directions* on regular paper...”

- ➔ Print on sticker paper* for quick peel and post
- ➔ Try magnet paper* for easy reuse on white boards

*Purchase at www.avery.com or your local office supply store.

Site Director, Arlington, VA

“Use a regular size printer to make poster size activities ...”

- ➔ Set your page scaling setting to “tile” and print on regular size paper. If you can’t find this setting on the print dialogue screen, refer to your printer’s manual.
- ➔ Overlap edges of the ‘tile’ pages and tape to create a poster. Touch up directions as needed.

Program Leader, Fresno, CA

“Take it to a print shop...”

- ➔ Get a few quotes and compare prices before you print. Remember to ask for discounts, specials, and/or donations.
- ➔ Pick the right paper. We found 20 lb. paper works best, but your print shop might have other suggestions.
- ➔ Go local or print on-line with a national chain.
