

6	5	1	8	2
3	4	1	7	3
2	3	4	8	6
8	6	3	7	1
1	3	2	4	5

NUMBER KNOCKOUT

Set up: Fill in each square with a number.

Go! Make an equation that equals ; Add, subtract, multiply, or divide. Use numbers that are next to each other on the grid. Each square can only be used once in each equation—no doubling back.
