

PERFECT SCORE

Players One or more

Materials Numbers 1 through 9 on slips of paper

Goal Make it work

How to Play Put numbers 1 through 9 in the squares to make each equation true.

$$(\square \times \square) = 7$$

$$(\square + 6) \div \square = \square$$

$$6 \times (\square - 5) = 6$$

$$(2 \times \square) + \square = 14$$

$$(3 \times \square) - 4 = 23$$
