

JOURNEY TO THIRTY

Players Two or more

Materials Four sets of cards ace (or 1) through 9

Goal Score the most points by hitting the number 30

- How to Play**
1. Take four sets of cards ace (or 1) through 9 and deal them out FACE DOWN, equally.
 2. Keep cards FACE DOWN in a stack in front of you.
 3. First player takes his or her top card and puts it FACE UP in the center, saying the number aloud.
 4. The next player adds his or her card and says the sum aloud.
 5. The next player adds a card and says the sum of all cards to this point. Continue until the total reaches 30. If the sum goes over 30, the next player subtracts to try to get down to 30.
 6. When a player reaches 30 exactly, he or she takes the cards, puts them aside, and scores a point.
 7. Keep going until all cards are gone. The most points wins.
