

ODDS OR EVENS

Players Two

Materials Cards ace (or 1) through 9

Goal Be the first to make 15 from three cards in a row, column, or diagonal

- How to Play**
1. One player takes the five odd-number cards and one takes the four even-number cards.
 2. The player with odd cards places one card on the grid.
 3. The player with the evens puts a card on the grid.
 4. Keep going. The first player to make a row, column, or diagonal equal to 15 wins!
