

WHERE DO THEY GO?

How do you see it?

Players

1 or more; can play in pairs or 3's

What You Need

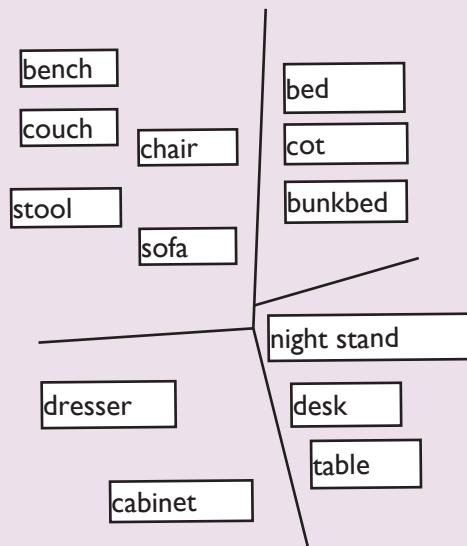

- ✓ Where Do They Go? cards with words (one set of the same cards for each player, or each group)
- ✓ Clock, watch, or timer (optional)

How to Play

1. Each player, pair, or team takes a set of the same cards.
2. Set a time limit (optional).
3. Each player (or pair, or 3) sorts the words into any groups that make sense. For example, furniture words could be sorted by type of furniture, the room it goes in, cost, or size. You must have at least two categories.
4. When the time is up, players show their sorts and explain their "mind map" of how they saw and grouped things.
5. Did you come up with the same or different things?

Example

Player 1

Player 2
