

Special Education Services

Improving programming for *all* students!

We know there is no “one size fits all” for special education support! That’s why Foundations provides a full continuum of customized services to meet your diverse needs – from comprehensive special education program evaluations and targeted analysis, to direct support for your state monitoring and compliance audits. Our capacity-building services are tailored to fit your school community, maximizing your existing resources and improving outcomes for your students.

Our experienced team will work with you side-by-side to transform your special education program through leadership coaching, ongoing professional development, and unique staffing solutions. Utilizing Foundations’ proven tools and resources, we will define the challenges, create specific goals, and develop effective, outcome-driven strategies. With us in your corner, we’ll help you create a brighter future for all of your students!
